Education

09/2020 — 04/2022 · **Diploma in Web&App Design, Langara College, Vancouver, CAN**

Key Courses: UX/UI Design, Raster & Vector Graphics, Project Management, Advanced Graphic Techniques, Communications for Web and App, Content Management Systems, Industry and Business Strategies, Audio/Video Production, HTML/CSS

09/2016 — 06/2019 · **Bachelor's Degree in Textile Design, Bath Spa, UK**

Key Courses: Digital Printing, Photoshop, Research & Communication Practices

Selected Projects

01/2022 — 04/2022 · **Sift, UX Research & UI Design**

Collaborated with a team of 7 people to build a React native application for recycling garbage in the Vancouver, BC, Canada area. I was responsible for planning weekly sprints, conducting primary and qualitative research, analyzing data gathered from surveys, creating two personas, designing user flow, and sketching wireframes for the object recognition feature and home page. Created some of the components in Figma to use amongst the team members. Designed 8 high-fidelity screens, performed A/B testing and worked on a promotional video.

09/2021 — 12/2022 · **Vita, UX Design & Web Development**

Worked in a team to build a data-driven responsive web application to solve the problem of an unbalanced diet due to a lack of education. I was responsible for conducting three interviews, creating personas, and designing 10 wireframes and 5 mock-ups. I also conducted usability testing with potential users, worked on a proposal document on InDesign and promotional materials.

Work Experience

01/2017 — 04/2020 · **Upwork, UX/UI Designer, Freelance**

- Designed numerous marketing programs such as logos, brochures, and website banners, by using custom Illustrator templates which resulted in consistent style, colors, and typography.
- Enhanced portrait photos of guests at wedding, by using Photoshop liquidity tool and camera raw filters, which resulted in impressive outcome.
